

## Product Features

- ✓ Configurable to take both pre, main or carbon panels.
- ✓ Available in zinc or stainless steel finish.
- ✓ Pre-filter range of efficiencies from G4 – F9.
- ✓ Various carbon types available to suit most contaminants.
- ✓ Range of standard sizes available.

Product Group	Actisys Panel Housing
Product Type	Housing.
Applications	Fume, pollution and odour removal in airports, museums, galleries and commercial buildings.
Filter Grades	G4-F9 + carbon or HEPA.
Filter Media	HEPA Glass media or loosefill carbon.
Case Material	1.8mm Galvanised steel or stainless steel.
Panel Size	Pre-filter 595 x 595 x 95mm    Main - 605 x 595 x 50mm

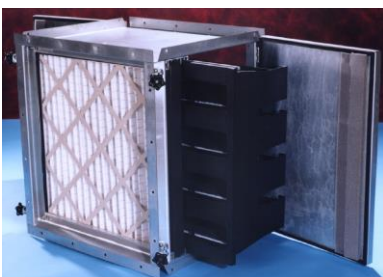

## Product Specification Data

GVS produce a wide range of standard housings to suit most fume and odour removal applications. The housings may be mounted on frames or directly onto concrete plinths. GVS supply a range of standard duct transformation pieces to allow easy connection to existing ductwork.

The housings can be used for pre-filters as well as either HEPA or carbon panels. These can be supplied in a range of carbon types to suit most contaminants and fume applications.

GVS offer a free design service for bespoke carbon filter projects.
